The shareholders voted to set the number of directors at six, re-elected John M. Mr. Diaz is a mining engineer with a master's degree in Mining Engineering from the Colorado School of Mines and has an extensive background in mine development. He had a successful and long career with Peñoles and Luismin where he developed underground and open pit operations. He directed the development, construction and operations of both the La Colorada project for Eldorado Gold and later the Cieneguita heap leach mine for Glamis Gold. As General Manager he led the multinational team that developed Alamos Gold's Mulatos Mine and also directed the design, construction and start of production of Morgain Minerals El Cairo Mine.

Through his consulting, engineering design and construction services company, Interminera, Mr. Diaz led the development of Pediment Gold's and later Argonaut Gold's La Colorada mine and the San Antonio deposit.
